Exeter being such a quintessential New England town yet one that offers everything at your finger tips: good schools, a walkable community, a great state of the art hospital and wonderful recreation and open spaces makes it a "place" to call home. eCclipse Enterprise Solutions, which provides guidance and technological support to pharmaceutical and health care companies, is pleased to have our North American headquarters in Exeter. A beautiful seacoast town with ease of access to transportation, Exeter helps eCclipse attract highly skilled life sciences and biomedical technology job candidates. eCclipse chose Exeter in part because of its proximity to Boston, a hub for pharmaceutical companies, many of whose workers commute from New Hampshire. Town representatives and the Exeter Economic Development Commission have been very cooperative and flexible with our needs for infrastructure and growth, and they have been supportive of our efforts to establish New Hampshire's Seacoast Center of Research Excellence (NH SCoRE). We look forward to many successful years here.
